

100th Call a Cab Driver

Call a Cab is a new circuit offered by parent company, Computer Cab.

Saturday 15th February saw five men come in to get fitted, trained and livered as the first Call a Cab drivers. Being Valentines Day, their dedication and commitment was rewarded with a bottle of champagne to wish them well on their way.

Call a Cab is now happy to announce, however, that since its birth in February 2002, they have just christened their 100th driver!

For just £5 a week, drivers get to join the circuit and benefit from the fantastic Mobistar system, offering benefits such as:

- Going Home – Whereby jobs are allocated in the direction of the driver's home when they are finishing a shift.
- Soon to Clear – Whereby next jobs are allocated as drivers are about to clear their current one.
- Bid – Drivers can bid for unmet jobs in different locations.
- Selection Criteria – Drivers can set the criteria for the jobs they would like to receive.
- Credit card facilities

Call a Cab also offers a solid and dependable GPS tracking system, which works 24/7.

A six-week free trial offer has proved to be very attractive to drivers too. Call a Cab fits them up, trains them, and supplies them with a manual – all for free!
